Now is the time to stop and think

Now is the time to stop and think, about getting your winter's wood, I have a good supply of Slabs, Edgings and Buttings; my prices are as low as the lowest. Don't drive a dirty horse when you can always get good dry sawdust at Holmes Mills. Remember I buy logs and stave wood standing or delivered at mill, or will buy your wood lot. No lot too big or too small. If you are going to do any logging next winter come early before the rush. I am making improvements all the time and can give you better service than ever the coming winter.

EARLY PROPRIETARY AND SETTLEMENT.

One of the subordinate land grants which the Plymouth Council who held the "great charter for New England," portioned out in the District of Maine, was the "Muscongus Patent," afterward called the "Waldo Patent" in honor of General Samuel Waldo who became the proprietor.

Belfast formed a part of the region included in the grant and was purchased by a company of men composed principally of citizens of New Hampshire, who paid the heirs of General Waldo fifteen hundred pounds for the tract.

In June 1769, Joseph Chadwick made a survey of the township, which he estimated to contain 19,359 acres and shortly afterward the deed of conveyance to the new proprietors was made out bearing the date of August 29, 1769.

The territory was portioned out in shares to the following men:—

John Mitchell,	Londonderry, N. H.,	6 shares
John Gilmore,	" "	5 "
Robert Patterson,	Pepperellboro, Me.,	3 "
John Steele,	Londonderry, N. H.,	3 "

Wm. Patterson,	" "	$\frac{1}{2}$ "
Matthew Chambers,	" "	$\frac{1}{2}$ "
James McLaughlin,	Pembroke "	$\frac{1}{2}$ "

Mitchell, Gilmore, Barnet, Tufts, Houston, Moor and McGregore, Jr., as proprietor's committee received 4 shares.

Richard Stimson had been employed by the grantors of the Belfast deed to "survey and make a suitable location for a road from Georges River in Thomaston to Fort Point in Prospect," and his family consisting of his father Ephraim Stimson, his mother, several sisters, and his brother Ephraim were the first settlers in Belfast. They were given a grant of land and arrived in the territory before the proprietors came into possession.

The above is a list of the interest on the loan of \$100.00 at 12% per annum, from Jan 1 to Dec 1, 1880. The interest is calculated on the basis of 30 days in each month, and 12 months in a year. The interest for each month is \$1.00, and the total interest for the year is \$12.00. The principal of \$100.00 is repaid at the end of the year.

In 1769, the Patterson brothers James and Nathaniel came to the township from Pepperellboro, now Saco, and began the preparation for the settlement.

The following year, Mitchell, Miller, Chambers, Wm. McLaughlin, Wm. Patterson and John Cochran of the original proprietors, and John Morrison, Thomas Steele, with James and Nathaniel Patterson, representing others were the first to begin the actual settlement.

In Dec. 1770, Morrison and Steele were drowned in Belfast Bay.

May 9, 1772, Ann, the daughter of Wm. Patterson was born, the first white child born in Belfast. She afterwards married Enos West Dec. 5, 1797, and died at Monroe, May 1, 1818.

Wm. Patterson 2d and Mary Mitchell were the first to be united in marriage. The ceremony was performed by Dr. Crawford of Frankfort who was a Justice of the Peace.

The proprietors held their first meeting in the new settlement June 25, 1771, but the first town meeting was not held until 1773, when Belfast was incorporated.

In 1779, the population of the town was 109; in 1790, 245.

The first settlers of Belfast were nearly all of Scotch-Irish descent and they brought with them into the wilderness the sturdy characteristics, the staunch determination, and persistent enterprize which mark the people of that race. The city of Belfast named for the city of that name in Ireland is their memorial.

INCORPORATION OF BELFAST.

The town was incorporated June 22, 1773, although there were only twenty-five families here at that time.

The warrant for calling the first meeting of the towns people was issued by Thos. Goldthwait, Esq., of Frankfort. The following is a copy.

To Mr. John Mitchell of Belfast, Gentleman—Greeting:—

Whereas the great and general Court at their sessions, began and held at Boston upon Wednesday, the twenty-ninth day of May last, passed an act for incorporating a certain tract of land lying on the westerly side of Penobscot Bay into a town by the name of Belfast in the County of Lincoln, and the said General Court having empowered me, the subscriber, to issue a warrant directed to some principal inhabitant in said town to notify and warn the Inhabitants there of qualified by law to vote in Town affairs to meet at such time and place as shall be therein set forth to choose such officers as may be necessary to manage the affairs of said Town, at which meeting all the then male inhabitants that be at the age of twenty-one years shall be admitted to vote.

These are therefore in his majesty's name to require you, the said John Mitchell, to notify the said Inhabitants of Belfast to meet at your dwelling house in said Town on Thursday the eleventh day of November at ten o'clock in the forenoon, then and there to choose a Town Clerk, Selectmen and all other Town Officers according to law and make return of this warrant with your doings as soon after the same is carried into execution as may be.

Given under my hand and seal at Frankfort, October 1773.

THOMAS GOLDTHWAIT

In obedience to the above warrant I have warned the Inhabitants of Belfast to attend their first meeting as appointed in said warrant.

JOHN MITCHELL.

At this meeting Thomas Goldthwait was chosen moderator; John Mitchell, clerk; John Brown, Benjamin Nesmith and James Patterson selectmen; John Barnet, treasurer; Wm. Patterson, 1st, constable; John Durham, Jr., Alex. Clark and James Miller, surveyors of highways; John Durham and James Morrow, wardens.

MILITARY HISTORY.

BELFAST IN THE REVOLUTION.

The people of Belfast though few in number, and living in a section of the colonies which next to Boston suffered most in the first year of the struggle for Independence were sturdy patriots and early espoused the American cause.

Soon after the outbreak of the war a town meeting was held for the purpose of electing a committee of safety and inspection and John Tufts, John Brown, Solon Stephenson, Jas. Patterson and Samuel Houston were chosen to serve on it. The new government of Massachusetts, which at that time included Maine was immediately recognized.

During the war the inhabitants of the town which was situated in a vast wilderness, suffered greatly from lack of provisions and were it not for outside aid must have died of starvation. The settlement was constantly menaced by British warships which cruised along the coast of Maine and this fact and the dread of the Indians and Tories kept the settlers in terror as they were too weak to resist an attack.

In 1779, the British invested Bagaduce now Castine, and the commander of the forces, Gen. McLean issued a proclamation requiring the male residents of the Penobscot Bay settlements to take an oath of allegiance to the British Crown. Most of the men of the Belfast settlement submitted to the oath unwillingly and were afterwards glad to receive the counter proclamation of General Lovell, who declared the oath illegal and void.

Shortly after the British invasion the "Penobscot Expedition" was fitted out and hostilities in this section were renewed. The expedition which unfortunately had an incompetent commander was a failure, and its defeat brought more privation and dismay to the people of Belfast. Immediate preparations were made for departure and the settlers dispersed to distant places of safety. A few families returned in 1780.

Several of the residents of Belfast were in active service during the Revolution among whom was Major Samuel Houston, Jr., who was one of the men selected to form the body guard of General Washington.

WAR OF 1812.

The second war with England was not looked upon with

general favor by the citizens of Belfast, since as a maritime town it was inevitable that her commerce should suffer greatly. There was much opposition to the war throughout all this section of the country, but once it was actively begun, and the duty of all loyal Americans became clear, Belfast responded to the call for men and aid. Recruiting offices were established and many men were enlisted for active service.

In 1814, there were two companies of militia commanded by Captains Nathan Swan and Robert Kelsey; a small artillery force commanded by Alfred Johnson; and a body of cavalry captained by Annas Campbell. The companies of Swan and Kelsey were in the United States service from the 2d to the 21st of September.

After the investment of Castine by the British, Major general Gosselin and the twenty-ninth Regiment of foot were dispatched in two transports accompanied by the frigate "Burchante" to take possession of Belfast. This regiment was the same that perpetrated the Boston massacre, and numbered about seven hundred men. They remained less than a week in the town, after which they returned to Castine.

The treaty of peace was signed at Ghent, Dec. 24, 1814, and the news was received in Belfast, Feb. fifteenth.

Belfast's quota in the Aroostook War was thirty men, and only twenty-four hours were allowed after the draft to provide a substitute or go in person. The men were commanded by Capt. Daniel Doriety; and Lieuts. John P. Wood and Joseph Eaton and served from Feb. 20 to April 23, 1839.

In spite of the fact that the Mexican War found little favor with the people of New England, nearly a full company was raised from Belfast and this vicinity. The men arrived in Vera Cruz, June 27, 1847, and were engaged in the battles of Cherebusco and Chepultepec.

Thirteen of them were killed or died from disease, among them Lieut. Amos H. Billings, Dennis Gillispie, Wm. Murch and Moses Thompson all of this town. The survivors reached home August 29, 1848, and of the original eighty-four, eighteen were present to be mustered out of service.

BELFAST IN THE REBELLION

When, in April 1861, Fort Sumter fell, and the storm clouds of sectional feeling broke forth in a declaration of war, the patriotism and loyalty of the citizens of Belfast responded nobly to the call to arms for the preservation of the Union.

Nearly a thousand men were enlisted in this city during the war, and about one hundred and fifty of the members belonged here. These soldiers were engaged at Gettysburg the Wilderness, and many of the great struggles of the war, and very many of them lost their lives in the service of their country.

Nearly half a century has passed since the dark days of the Rebellion, and the roll call of the Grand Army grows smaller year by year as one after another the soldiers are mustered out of earthly service and join the ranks of their comrades who have gone before.

The sacrifice and suffering of these noble men is the heritage of another generation, and of generations yet unborn, but the memory of their noble deeds will not pass away. They will be held in cherished recollection forever by every loyal son and daughter of our land, and long after the last survivor of the once mighty host has been laid in eternal rest, thir memory will remain as a priceless heritage of the nation which they preserved, and made the greatest of the earth.

In the long list of the soldiers and sailors of Belfast will be found the names of many comrades who are numbered with the dead. Of the eight hundred and fifty-three men credited to Belfast one hundred and fourteen sacrificed their lives on the alter of their country. Forty fell upon the battlefield, seven died at Andersonville and Bell Isle, thirty-six succumbed to disease, thirty-one of wounds, and the fate of one is unknown. Many of their comrades have since followed them into the Unknown.

The individual records of these men and their comrades who survive would make an interesting book, but we must confine ourselves to the simple list of names.

Let us remember as we read the list that we owe everything we possess to them, because they saved our country, and preserved it unfettered and free, and let us with reverence and gratitude linger over the roll of the bravest and truest of soldiers whose names are recorded here.

BELFAST'S DEAD IN THE REBELLION

Lieut. Wm. B. Allyn, Henry Black, Edward Baker, Joshua W. Blodgett, Sergt. Rufus E. Brackett, Eben F. Brier, Francis E. Brier, Sergt. Chas. Brown, Joshua L. Brown, Herbert L. Bucklin, Geo. W. Burgess, Tolman Y. Burgess, Corp. Wm. A. Burgess, quota of Charleston, Mass.; Chessabrook Burgin, Americus F. Carter, Color Sergt. Preston J. Carter, Corp. Job. Clark, Jose E. Clark, Geo. A. Crosby, Chas. C. Collins, Jas. E. Dean, Lieut. Frank W. Dickerson, Daniel Dow, Frederick H. Dyer, Israel G. Eastman, Everett Emmons, Corp. Calvin Emerson, Franklin A. Ellis, Ransom Forbes, Sergt-Major Wm. H. Gardiner, Edmund Gay, John T. Gilbreth, Lieut. Samuel G. Gilbreth, Chas. Giles, Alonzo M. Gilman, enlisted in the Navy at Charleston, Mass.; Frank Glidden, Andrew Greer, Sergt. Riley Greer, Roswell Haire, Augustine E. Hall, Sergt. Jos. W. Harriman, Henry Haugh, Prescott D. Hinds, Sergt. Ralph Johnson, Corp. Louira A. Kelley, Lieut. Warren L. Kendall, Wm. J. King, Constantine Knowles, Edwin Lindsey, Jas. E. Linscott, Acting Master Sumner P. Lothrop, joined at Charleston; Col. Thos. H. Marshall, 7th Regt. Me. Vols., died of fever at Baltimore, Oct. 25, 1861; Jas. C. Mason, Sergt. N. N. Mayo, Augustus McColley, Geo. McMichaels, Samuel McMichaels, Lieut. Sheridan F. Miller, Andrew Newbit, Corp. Robert I. Newell, John O'Connell, A. A. Parker, John C. Patterson, Alexis G. Patterson, Henry A. Patterson, Miller Payne, John M. Pillsbury, Wm. F. Pottle, Albert Quimby, Michael Rariden, Michael Rariden, Jr., Emery Richards,

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and development. It begins with the first settlers, who came to the continent in search of a better life. They found a land of opportunity, where they could build a new society. The early years were marked by struggle and hardship, but the settlers persevered. They fought for their rights and their freedom. They built a nation that was based on the principles of liberty and justice for all. The United States has come a long way since those early days. It has grown into a great power, with a rich culture and a strong economy. It has made many contributions to the world. But it has also faced many challenges. It has fought wars, both at home and abroad. It has experienced periods of economic hardship. But it has always risen to the occasion. It has always found a way to overcome its difficulties. The history of the United States is a story of resilience and strength. It is a story of a nation that has the courage to face its challenges and the wisdom to learn from its mistakes. The United States is a land of hope and possibility. It is a land where dreams can come true. It is a land where the future is bright.

Wm. F. Rideout, Chas. Ripley, Jas. Robbins, Alonzo Robinson, Geo. W. Robinson, Harrison Rowe, quota of Wilbraham, Mass., John K. Sawyer, Lieut. Leroy S. Scott, Sergt. Wm. H. Shailes, John F. Shuman, Chas. Spinks, Eugene Sylvester, quota of Swansea, Mass.; Geo. W. Sylvester, Alonzo H. Stickney, Sergt. John A. Toothaker, received the Kearney Medal of Honor; Corp. Geo. F. Tufts, Corp. Alfred P. Waterman, Daniel J. West, Daniel R. West, Sergt. John A. White, Nathan S. Winslow, Corp. Jese A. Wilson, Jones E. Wilson, Augustus J. Wilson, Capt. Amos B. Wooster, Corp. Frederick H. Wyman, Ezra Young, Geo. S. Young.

Geo. E. Day, who enlisted in Pembroke; Lieut.-Col. Wm. S. Heath, Robie F. Hollis, 56th N. Y. Regt.; Joseph Bryant Smith, Commander of the frigate Congress; and Col. Wm. O. Stevens, 3d Excelsior Regt., N. Y., were natives of Belfast.

BELFAST IN THE ARMY

Fred D Aldus Sergt Co A 4th Inf Coast Gds, Jas Aldus B 14, John C Aldus B 7 and G Vet vol, W S Aldus K 12 and D 12, Benj F Allen F 16, John R Ames A 9, Laureston Ames 14, Horace Anderson Coast Survey, John F Annis A 56th Mass, Isaac P Avery A 1st H Art, Cug'n Babcock F 19, Jos A Bacon B 16, Alonzo J Bagley B 1st

*NOTE: The rank, if an officer, the Company, Letter, and the Regiment Infantry number is given after each name. The list includes the officers and men credited to Belfast, except those who lost their lives in the service.

The first part of the book is devoted to a discussion of the basic concepts of the theory of functions of a complex variable. The second part is devoted to a discussion of the theory of conformal mappings. The third part is devoted to a discussion of the theory of residues and the theory of the Riemann zeta function. The fourth part is devoted to a discussion of the theory of the gamma function and the theory of the beta function. The fifth part is devoted to a discussion of the theory of the hypergeometric function and the theory of the elliptic functions. The sixth part is devoted to a discussion of the theory of the theta functions and the theory of the modular functions. The seventh part is devoted to a discussion of the theory of the automorphic functions and the theory of the automorphic forms. The eighth part is devoted to a discussion of the theory of the automorphic representations and the theory of the automorphic L-functions. The ninth part is devoted to a discussion of the theory of the automorphic forms and the theory of the automorphic representations. The tenth part is devoted to a discussion of the theory of the automorphic forms and the theory of the automorphic representations.

CHAPTER 2

The first part of the chapter is devoted to a discussion of the basic concepts of the theory of functions of a complex variable. The second part is devoted to a discussion of the theory of conformal mappings. The third part is devoted to a discussion of the theory of residues and the theory of the Riemann zeta function. The fourth part is devoted to a discussion of the theory of the gamma function and the theory of the beta function. The fifth part is devoted to a discussion of the theory of the hypergeometric function and the theory of the elliptic functions. The sixth part is devoted to a discussion of the theory of the theta functions and the theory of the modular functions. The seventh part is devoted to a discussion of the theory of the automorphic functions and the theory of the automorphic forms. The eighth part is devoted to a discussion of the theory of the automorphic representations and the theory of the automorphic L-functions. The ninth part is devoted to a discussion of the theory of the automorphic forms and the theory of the automorphic representations. The tenth part is devoted to a discussion of the theory of the automorphic forms and the theory of the automorphic representations.

The following table shows the results of the various experiments conducted during the year 1902-1903. The first column gives the name of the experiment, the second column gives the date when it was conducted, the third column gives the name of the person who conducted it, and the fourth column gives the results of the experiment. The results are given in the form of a table, the first column of which gives the name of the experiment, the second column gives the date when it was conducted, the third column gives the name of the person who conducted it, and the fourth column gives the results of the experiment. The results are given in the form of a table, the first column of which gives the name of the experiment, the second column gives the date when it was conducted, the third column gives the name of the person who conducted it, and the fourth column gives the results of the experiment.

The first of these is the fact that the
 world is not a uniform whole, but a
 collection of many different parts, each
 with its own characteristics and laws.
 This is the principle of diversity, and it
 is the basis of all science. The second
 is the fact that the world is not a
 static whole, but a dynamic whole, in
 which everything is constantly changing.
 This is the principle of change, and it
 is the basis of all history. The third
 is the fact that the world is not a
 simple whole, but a complex whole, in
 which everything is interconnected and
 interdependent. This is the principle of
 complexity, and it is the basis of all
 philosophy. The fourth is the fact that
 the world is not a perfect whole, but an
 imperfect whole, in which there are
 many flaws and imperfections. This is
 the principle of imperfection, and it is
 the basis of all art. The fifth is the
 fact that the world is not a whole, but
 a part of a larger whole, the universe.
 This is the principle of relativity, and it
 is the basis of all cosmology. The sixth
 is the fact that the world is not a
 material whole, but a spiritual whole, in
 which there are many immaterial things.
 This is the principle of spirituality, and
 it is the basis of all religion. The seventh
 is the fact that the world is not a
 rational whole, but an irrational whole,
 in which there are many things that
 cannot be explained by reason. This is
 the principle of irrationality, and it is
 the basis of all poetry. The eighth is
 the fact that the world is not a
 finite whole, but an infinite whole, in
 which there are many things that go
 beyond the limits of our understanding.
 This is the principle of infinity, and it is
 the basis of all mathematics. The ninth
 is the fact that the world is not a
 single whole, but a multiple whole, in
 which there are many different worlds.
 This is the principle of multiplicity, and
 it is the basis of all metaphysics. The
 tenth is the fact that the world is not a
 whole, but a part of a larger whole, the
 universe. This is the principle of relativity,
 and it is the basis of all cosmology.

The first of these is the fact that the
 number of cases of smallpox in 1870
 was 1,000, which is a very small number
 compared with the number of cases in
 1869, which was 10,000. This is a
 very important fact, and it shows that
 the disease is not so common as it
 was in 1869. The second fact is that
 the number of deaths from smallpox in
 1870 was 100, which is also a very
 small number compared with the number
 of deaths in 1869, which was 1,000.
 This is also a very important fact, and
 it shows that the disease is not so
 dangerous as it was in 1869. The third
 fact is that the number of cases of
 smallpox in 1870 was 1,000, which is
 a very small number compared with the
 number of cases in 1869, which was
 10,000. This is a very important fact,
 and it shows that the disease is not
 so common as it was in 1869. The
 fourth fact is that the number of
 deaths from smallpox in 1870 was 100,
 which is also a very small number
 compared with the number of deaths in
 1869, which was 1,000. This is also
 a very important fact, and it shows
 that the disease is not so dangerous as
 it was in 1869. The fifth fact is that
 the number of cases of smallpox in 1870
 was 1,000, which is a very small number
 compared with the number of cases in
 1869, which was 10,000. This is a
 very important fact, and it shows that
 the disease is not so common as it was
 in 1869. The sixth fact is that the
 number of deaths from smallpox in 1870

ECCLESIASTICAL ACCOUNT.

The early settlers of Belfast were men of strong religious character and they brought the sentiments and traits which they had inherited from their fathers to their new home.

Previous to the close of the Revolutionary War there

was no settled minister in Belfast, though Rev. John Murray, a Presbyterian clergyman, occasionally preached, and Rev. Daniel Little of Kennebunk was here frequently during the year 1775.

In accordance with a vote passed February 6, 1792, two meeting houses were erected during the summer of that year, one on each side of the river.

After the completion of the two meeting houses several clergymen preached here, among them being Rev. John Murray, Rev. Peter Powers of Deer Isle, Rev. Mr. True and Rev. Mr. Ely.

The Rev. Ebenezer Price was the first settled minister of Belfast. He was ordained Dec. 29, 1796, and the First church of Belfast was organized with seven members including the minister himself. Six other members were soon after received, and the church grew in importance. The rite of Baptism was first solemnized June 16, 1797.

Mr. Price was dismissed September 22, 1802, and for several years following his dismissal there was no settled pastor in the town. Rev. Mighill Blood, Rev. Henry True and Rev. Alfred Johnson were among the ministers who conducted services until the last mentioned was installed as regular pastor Sept. 25, 1805.

The Rev. Mr. Johnson was a man of strong personality, well educated, of commanding presence, fearless and determined. For several years after his settlement the membership of the church increased, but his ministry was not satisfactory to all the members of the community and the religious difficulties which had culminated in the dismissal of Rev.

Mr. Price were renewed. In 1809, a Methodist society was formed and the Baptists had become so numerous that they too determined to incorporate a new society. In 1811, the Baptist society was organized and in the same year also a reorganization was made of the Congregationalists.

Following the resignation of Rev. Mr. Johnson in 1813, there was no regular preaching held by the latter society until 1818, although in 1815, the Rev. Mr. Piper was engaged to preach for a brief period, and in 1817, the Rev. Wm. Frothingham was employed to preach for a term of several months.

The parish voted Feb. 2, 1818, to build a new meeting house, provided a sufficient sum could be raised and the building was erected in the summer of that year.

FIRST UNITARIAN CHURCH—CHURCH STREET.

The meeting house erected by the Congregational society in 1818, is the present religious home of the Unitarians of Belfast. Rev. Wm. Frothingham, the first settled pastor of the new church was publicly installed July 21, 1819, and on the 12th of August there were eight members including the pastor.

Mr. Frothingham's ministry lasted twenty-seven years and the total number of those who became members during that period, was one hundred and two. His last sermon was preached April 4, 1847. He died June 24, 1852.

The church had no settled pastor after the resignation of Mr. Frothingham until July, 1847, when a call was extended to the Rev. Marcus A. H. Niles of Lowell, Mass.

Mr. Niles was installed August 11, although he was in ill health. He died six days later, and the church remained without a pastor for several months.

The Rev. Caznean Palfrey was installed April 19, 1848, and his ministry continued until 1871.

On the sixteenth of August, 1849, the first annual meeting of the Maine Conference of Unitarian churches was held in Belfast.

Rev. David N. Utter succeeded Dr. Palfrey. He was a graduate of the Cambridge Divinity School and his ordination took place Oct. 31, 1871. His connection with the Belfast church came to an end in April, 1874.

Rev. James T. Bixby, a Harvard graduate was the next pastor, coming here in December, 1874. His ministry came to an end in April, 1879.

Rev. Edw. Crowinshield who was the next pastor died in February, 1883. Rev. John A. Savage of Nantucket assumed the pastorate in 1892, and was succeeded by Rev. Jas. M. Leighton. Rev. Harry Lutz was the next pastor. He was succeeded by Rev. Adolph Rossbach, the present pastor.

FIRST CONGREGATIONAL CHURCH—CHURCH STREET.

The members of the early Congregational church in Belfast had joined in extending a call to the Rev. Mr. Frothingham, but the greater part of them were dissatisfied with his views and separating from the parish formed a new society which they called "The Congregational Society associated with the First Church in Belfast."

The vote infavor of separation was passed May 20, 1820,

and the records of the church commence with that date.

Talford Durham was chosen moderator, Henry Davidson clerk, and Deacon Durham, Henry Goddard and Caleb Smith were elected to serve as a standing committee. For several years after the organization of the new church, missionaries and neighboring ministers supplied the church until the Rev. Chas. Soule was ordained pastor June 30, 1824.

A vote had been passed in October, 1821, to erect a meeting house, but it was not carried into effect, and in 1822, the building called the "conference house" was erected. In 1824, the society was reorganized as doubts existed concerning the legality of the earlier organization. In 1825, monthly services were held, and Mr. Soule continued as pastor until the following year, when he procured a dismissal.

The Rev. Nathaniel Wales of Hanson, Mass., who had supplied the pulpit for several months before his ordination was installed as pastor on the 26th of September, 1827. He continued as minister until his death Jan. 20, 1829. Mr. Ferris Fitch of the Andover Theological Seminary, was engaged to succeed Mr. Wales and was ordained pastor of the church October 20, 1830. During the ministry of the Rev. Mr. Fitch a new church edifice was erected and dedicated Feb. 14, 1832. The frame had been raised in June of the previous year. Mr. Fitch severed his connection with the church May 15, 1832, and was succeeded by Rev. Silas McKeen of Bradford, Vt., whose installation took place Feb. 27, 1833. Mr. McKeen was dismissed at his own request in

The first of these is the fact that the data are not normally distributed. This is evident from the fact that the distribution of the data is skewed to the right. The second of these is the fact that the data are not independent. This is evident from the fact that the data are correlated. The third of these is the fact that the data are not stationary. This is evident from the fact that the data are non-stationary.

The fourth of these is the fact that the data are not normally distributed. This is evident from the fact that the distribution of the data is skewed to the right. The fifth of these is the fact that the data are not independent. This is evident from the fact that the data are correlated. The sixth of these is the fact that the data are not stationary. This is evident from the fact that the data are non-stationary.

The seventh of these is the fact that the data are not normally distributed. This is evident from the fact that the distribution of the data is skewed to the right. The eighth of these is the fact that the data are not independent. This is evident from the fact that the data are correlated. The ninth of these is the fact that the data are not stationary. This is evident from the fact that the data are non-stationary.

The tenth of these is the fact that the data are not normally distributed. This is evident from the fact that the distribution of the data is skewed to the right. The eleventh of these is the fact that the data are not independent. This is evident from the fact that the data are correlated. The twelfth of these is the fact that the data are not stationary. This is evident from the fact that the data are non-stationary.

1841.

The Rev. John Lord preached for several months following the dismissal of Mr. McKeen. On June 15, 1842, Rev. Elbridge G. Cutler was ordained pastor of the church. During the first year of his ministry fifty-six persons joined the church as the result of a religious revival. Mr. Cutler's labors were terminated by his death, which occurred April 28, 1846. The Rev. Edw. F. Cutler of Warren was installed as Mr. Cutler's successor Sept. 23, 1846. His ministry continued until Oct. 8, 1856.

Rev. Wooster Parker was the next pastor. He was succeeded after his resignation in 1870 by the Rev. Rufus K. Harlow who supplied the pulpit until the installation of the Rev. Robert H. Davis an Amherst graduate. Mr. Davis remained until 1873. The Rev. John A. Ross assumed the pastorate September 4th and continued until Aug. 31, 1886. Rollin T. Hack, Mr. Davis' successor was ordained Sept. 30, 1887. The Rev. Mr. Hack was pastor of the church until Nov. 10, 1894. He was succeeded Sept. 24, 1895, by the Rev. Geo. S. Mills, whose ministry continued until 1904. The Rev. D. L. Wilson who succeeded Mr. Mills is the present pastor of the church.

FIRST BAPTIST CHURCH—HIGH STREET.

Elder Isaac Case of Thomaston was instrumental in establishing a Baptist church in Belfast, and through his efforts one was organized July 13, 1809. The society had no regular place of worship and no permanent preacher for several years, and as a result did not grow materially. In 1820 a new church was formed with seventeen members, and

THEORY

The first part of the paper discusses the theoretical background of the study. It begins with a review of the literature on the topic, highlighting the key findings and gaps in the existing research. The author then presents a conceptual framework that guides the study, showing the relationships between the variables of interest. This is followed by a detailed description of the research methodology, including the study design, data collection procedures, and the statistical analyses used to test the hypotheses. The second part of the paper presents the results of the study. It starts with a summary of the descriptive statistics, followed by a detailed presentation of the findings for each hypothesis. The author discusses the implications of the results, comparing them with the theoretical expectations and the previous research. The paper concludes with a discussion of the limitations of the study and suggestions for future research.

The study has several limitations. First, the sample size was relatively small, which may limit the generalizability of the findings. Second, the study was cross-sectional, which prevents the establishment of causal relationships. Third, the self-report measures used in the study may be subject to common method biases. Despite these limitations, the study contributes to the understanding of the phenomenon under investigation and provides a foundation for future research.

the records commence April 13th of that year.

Elder John Wagg who had preached about two years previous to Dec. 25, 1820, was on his own request dismissed, and was succeeded by Elder Joshua Eveleth, under whose ministry the church grew and flourished. Meetings had been held in the school houses on each side of the river, but in 1822 the old west meeting house was purchased, and was made a place of worship by the society. Elder Noah Hooper was the successor of Elder Eveleth and continued as pastor from Feb. 6, 1826, to Aug. 11, 1827.

For a period of ten years after the ministry of Elder Hooper the church had no settled, pastor although it was supplied in the interval by Elder John Hull, 1827-1829; Elder John S. White in 1831; Elder Horace Seaver Jan. 27, 1832-April 6, 1833; and by Elder H. Kendall during the winters of 1833 and 1834. Elder Wm. Day was pastor from Oct. 13, 1835 to June 1837. The number of the members and the influence of the society increased, and it soon became necessary to erect a larger place of worship. The frame of the new building was raised in July, 1837, and on the 20th of December the church was dedicated. The Rev. Sylvanus G. Sargent was ordained pastor of the church June 13, 1838.

In 1839 the Baptist Church Temperance Society was organized, and Deacon James McCrillis was elected president.

In 1840 a branch church was organized in the eastern part of the town within the present limits of Searsport, and forty members were dismissed from the first church for the purpose of establishing the new. The Rev. Mr. Sargent re-

signed his pastorate in 1844, and was succeeded by the Rev. Edw. D. Very in July, 1845. Mr. Very's ministry continued until the close of 1846, when his place was taken by the Rev. Joseph Ricker who preached until January, 1853.

The Maine Baptist Convention held a session of three days with the church in July, 1852. The Rev. Samuel Cole of Beverly was the next pastor after the conclusion of Mr. Ricker's ministry. His death occurred Nov. 11, 1854, and for a year afterward the church had no settled preacher.

Rev. Cyrus Tibbetts in 1856; Rev. Eli Dewhurst March, 1857-March, 1859; Rev. Wm. Read in 1860; and Rev. Harvey Hawes in 1862, were the succeeding pastors of the church. The Rev. W. O. Thomas became pastor in May, 1864, and continued as such until June, 1872. Through his efforts principally the church was remodelled in 1869-70 at a cost of about \$6,000, and was afterwards rededicated June 24, 1873.

After the resignation of Mr. Thomas the church was supplied by the Rev. F. S. Fish, the Rev. H. W. Tilden, and several other preachers. The next regular pastor was the Rev. Albert A. Ford, Dec. 21, 1873-April 25, 1875.

The pastors of the church since 1875 are as follows: Rev. David F. Estes, May 21, 1876-Sept. 1878; Rev. F. W. Ryder, Jan. 1, 1880-Sept. 1881; Rev. Geo. E. Tufts, who now resides in Islesboro, Dec. 1881-Sept. 1890; Rev. John F. Tilton, Nov. 1, 1891-May 8, 1898; Rev. Randall E. Capen, July 3, 1898-Dec. 23, 1900; Rev. Eugene S. Philbrook, Aug. 30, 1901-Nov. 30, 1906; and Rev. Donald H. MacQuarrie, who came in July, 1907, and is the present pastor.

METHODIST EPISCOPAL CHURCH—MILLER STREET.

The first Methodist sermon preached in Belfast was delivered in August, 1795, by the Rev. Joshua Hall, but a church was not established until 1809, when the Rev. John Williamson made the first efforts toward the organization of a society. He formed a class of which Robert Miller became the leader and meetings were held in the village school house until its use was refused, when the houses of Miller and of Robert Patterson were employed. The society grew in strength and numbers in spite of the opposition it received and in 1823, erected a chapel. The dedication sermon was preached by the Rev. Mr. Lovell.

During the ministry of the Rev. Wm. J. Wilson, the present church was erected at a cost of \$9,800. The dedication took place October 11, 1859, the sermon being preached by the Rev. E. O. Haven, D. D. of Boston, Mass.

The following is the list of Methodist ministers stationed at Belfast as given by Williamson's excellent "History of the City of Belfast." It is the most authentic list obtainable.

1795, Joshua Hall; 1796, Enoch Mudge; 1797, Enoch Mudge and Timothy Merritt; 1798, Enoch Mudge and John Finegan; 1799, John Merrick; 1800, John Gove; 1801, Joseph Baker; 1802, Asa Pattee; 1803, C. Munger and Samuel Thompson; 1804, Wm. Goodhue; 1805, Levi Walker; 1806, Samuel Hillman and Jonas Weston (It is not certain that they preached here that year); 1807, David Stinson; 1808, John Williamson; 1809, John Williamson and Benja-

min Jones; 1810, David Stinson and Geo. Gray; 1811, Nathan R. Ashcraft; 1812, Amasa Taylor; 1813, John Jewett; 1814, Jonathan Chaney and Joseph B. White; 1815, Benj. Jones; 1816, Benj. Jones and Daniel Wentworth; 1817, Wm. McGray; 1818, Henry True; 1819, Henry True; 1820, John Briggs; 1821, Ebenezer F. Newell; 1822, Ebenezer F. Newell; 1823, Stephen Lovell; 1824, Stephen Lovell; 1825-26, Ezra Kellogg and Wm. H. Norris; 1826-27, Philip Munger and Greelief Greeley; 1828, Richard E. Schermerhorn; 1829, Elijah Crooker; 1830, Caleb Fuller; 1831, Francis Messure; 1832, Joshua Hall; 1833-34, Phineas Higgins and Joseph H. Jenne; 1835, Phineas Higgins; 1836, Benj. Jones; 1837, Mark Trafton; 1838, J. C. Aspinwall; 1839, J. W. Dunn; 1840, Benj. F. Sprague; 1841, Seavey W. Partridge; 1842, E. Pinder; 1843-44, Theo. Hill; 1844-45, John Atwell; 1846-47, Jas. Thurston; 1848-49, Daniel H. Mansfield; 1850-51, Abial Foster; 1852-53, Ephraim H. Small; 1854, Cyrus M. Freeman; 1855, Albert H. Hall; 1856, John C. Prince and Edwin Johnson; 1857-58, Wm. J. Wilson; 1859, Joel A. Steele and Leander S. Coan; 1860-61, Lorenzo D. Wardwell; 1862-63, Thos. B. Tupper; 1864-65, Wm. J. Robinson; 1866-67, True P. Adams; 1868-70, Luther P. French; 1871-73, William L. Brown; 1874-77, Geo. Pratt.

Since the publication of Mr. Williamson's work the following have been pastors: 1877, J. H. Moores (3 months); 1878-81, Theodore Gerrish; 1881-83, C. E. Libby; 1883-85, W. H. Williams; 1885-89, B. C. Wentworth; 1889-92, G. B. Chadwick; 1892-95, S. L. Hanscom; 1895-99, G. G. Winslow; 1899-1904, Gilbert E. Edgett; 1904-1907, John W. Hatch; 1907, Rev. A. E. Luce.

CHURCH OF OUR FATHER, UNIVERSALIST—COURT STREET.

The Gospel Banner of July 2, 1852, says that the first Universalist sermon ever delivered in Belfast was preached here in 1822, but in all probability an earlier one had been preached by a missionary in 1809.

In 1824 the first Universalist society was formed under the name of the "Christian Society of Universalists in Belfast." This name was afterwards changed to that of the "First Universalist Society in Belfast."

The Rev. Wm. A. Drew was pastor from 1824 to 1826. For several years afterward there was no settled pastor. Like the Methodists, the Universalists at first found much opposition to their doctrine from the townspeople, but the society continued to grow in spite of the petty persecutions. On the 27th day of July, 1836, the society was reorganized and a new constitution was adopted. In 1839 a church was erected, being dedicated October 30th of that year. The dedicatory sermon was preached by the Rev. Frederick A. Hodsdon of Levant. During the year 1840 services were conducted by the Rev. Andrew Pingree, and by several other clergymen.

In January, 1841, the Rev. Darius Forbes of Hallowell accepted a call to the pastorate and was installed March 3d of that year. Rev. Frederick A. Hodsdon succeeded him in January, 1844, and continued as pastor until 1848. During the pastorate of the Rev. Nathan C. Fletcher, who was Mr. Hodsdon's successor, the Maine Convention of Universalists was held here. It took place in June, 1852.

Rev. J. H. Farnsworth came in June, 1855, and remained until 1858, when the Rev. Mr. Hodsdon accepted a second call, and spent four years here, until in 1862 he was appointed chaplain of the Twenty-fourth Maine Regiment. Rev. Calvin Gardner preached for six months in 1863, when Mr. Hodsdon was again engaged for a period of a year.

In 1865 the owners of the meeting house incorporated themselves as a parish, under the name of the "First Universalist Parish in Belfast." Rev. S. C. Hayford, 1865-1866, and Rev. Giles Bailey were the next pastors of the church.

The church edifice was renovated and remodeled during 1869-70, and was dedicated July 20, of the latter year. Rev. G. W. Quimby supplied the pulpit for six months, from Nov. 13, 1870, and was succeeded by Rev. F. Stanley Bacon whose ministry continued more than two years, until his sudden death of apoplexy Oct. 14, 1873.

The Rev. Simeon Goodenough was the next pastor of the church, and remained several years. He was succeeded in 1883 by Rev. T. P. Gregory, who remained about three years. The Rev. G. W. Jenkins began his ministry about 1886 and continued until 1888, when the Rev. F. L. Payson assumed the pastorate. The Rev. Myra Kinsbury was Mr. Payson's successor in 1892. She was pastor of the church until the Rev. Chas. H. Wells was called, about 1896. The Rev. Ashley Smith succeeded Mr. Wells and is the present pastor of the church.

SAINT FRANCIS' CATHOLIC CHURCH—COURT STREET.

The first Catholic services in Belfast were held probably

by the Rev. Father Ryan of Whitefield about 1830. In 1844 the Rev. Fr. Moore held services in Washington Hall, and in February, 1851, the Rev. Fr. John Force preached here.

The Catholics maintained a little chapel on Primrose street, and for several years prior to 1870 missionaries from Ellsworth or Rockland came once a month to say mass and to preach to them. The Rev. Fr. Peterson of Rockland held services here frequently in the seventies, at which time the Catholic population of Belfast and the immediate vicinity numbered about one hundred and fifty.

Prior to 1894 Belfast had been included in the Winterport parish, and Fathers Phelan and Gerrity said mass here occasionally, but in that year it was made an independent parish, and a new church edifice was erected, principally through the aid of Mr. Wm. Brannigan. The Rev. Father Morris O'Brien was instrumental in building the church and became the first pastor. A thorough Christian, devoted to his sacred duties and to the welfare of his fellowmen, Father O'Brien was loved and respected by all, and his death came as a great sorrow to his host of friends.

The Rev. Fr. John E. Kealy succeeded Father O'Brien, and remained for several years. The Rev. Fr. Herman H. Hamakers came here in October, 1905, and is the present pastor of the church. Mass is held every Sunday and Holyday of obligation at 10 o'clock.

CONGREGATIONAL CHURCH—HEAD OF THE TIDE.

A religious society known at first as the "Puritan Society of Belfast" was organized Aug. 31, 1846, by inhabitants

of the "north part of Belfast and vicinity." Forty-two members of the first church procured a dismissal for the purpose of forming a new church, and on the 21st of September it was voted to establish such a church under the name of the "North Church in Belfast."

The society first held its meetings in the school house at the Head of the Tide. In 1847, the present edifice was erected and dedicated September 23d. The name of the society had been changed the month before to that of the "North Congregational Society of Belfast." Previous to August, 1847, the church had been supplied by neighboring clergymen. Samuel Souther Jr., was ordained the first regular pastor of the church, the day of its dedication. He was afterward killed in the Wilderness campaign, having enlisted in the fifty-seventh Mass. Regt. After the resignation of Mr. Souther in 1852, the Rev. Joseph R. Munsell of Vermont became pastor, his installation taking place Sept. 22, 1852. He resigned Oct. 1, 1858.

Those who have acted as pastors since that time are Trueman A. Merrill, 1861-1863; J. W. C. Pike, 1865-1866; T. F. Chambers, 1870; Dan'l L. Smart, 1870; Robert Doig, 1871; Wm. N. Todd, 1872; Arthur G. Fitz, 1873.

For many years the church was supplied by neighboring clergymen and by theological students. The Rev. J. W. Vaughan was pastor for seven months in 1905, and was succeeded by Rev. Wm Vaughan, whose ministry continued for about six months during 1906.

TRINITY REFORMED CHURCH—EAST BELFAST.

The Trinity Reformed Church of East Belfast is the only church edifice of the Reformed church in the New England States, although the denomination itself is one of the oldest in the country.

The East Belfast Church is erected on the same site that was chosen for the old East Side meeting house in 1792. The building is principally of stone and contains seven memorial windows. The center window represents in the original colors the coat of arms of the Reformed church and was given by Mrs. Vaughan in honor of her parents. Two of the windows were given by the Ladies' Circles of East Belfast and are on each side of the large window presented by the Belfast G. A. R. The window behind the pulpit was given by Mr. Wm. L. Brower of New York City, and is a representation of Christ among the Lilies. The designs of two of the windows were taken from Hoffman's group; that presented by Mr. Dana F. Lawrence of East Greenwich, R. I., Christ as a boy in the Temple, and that given by the Vaughan family being a representation of the Master's face.

The bell was presented to the society by Mrs. Chas. H. Knox of New York City, in memory of her husband. The building will be dedicated in the autumn of 1907, and about twenty-five members will unite to form the congregation. The Reverend Wm. Vaughan formerly of New York City, is pastor of the church.

SEASIDE SPIRITUAL CHURCH.

This church was organized in November, 1906, and was the outcome of several societies previously organized. Mr. Orrin J. Dickey is president, Mr. Geo. F. Mayhew, vice-president, Mrs. A. T. Stevens, secretary, and Mr. Edgar Cunningham, treasurer. Meetings are held in the Seaside Grange Hall.

There are a few Episcopalians in this city and services are held occasionally.

Rev. Joel Clapp occupied the pulpit of the Unitarian church one Sunday in 1838. Christmas was celebrated that year for the first time in Belfast. The Right Rev. Henry A. Neeley, Bishop of Maine, held services in 1867 and in 1871.

Among the other denominations represented in Belfast, are the Friends and Free Baptists. There is a small society of Christian Scientists in the city and meetings are held in private residences. There have been several Adventist ministers here also.

EDUCATIONAL ITEMS.

The town voted in 1794, to raise thirty pounds for the support of a school and about this time the first school house was built. Wm. Crooks was the first school master.

In 1799, a vote was passed "to have three school districts on the easterly side, and two on the westerly side of the

river," and the limits of the districts were defined the following year. In 1802, \$600 was appropriated for the erection of a school house on the western side; and the building was erected that year at a cost of \$591.36. The history of the schools and of education in Belfast during succeeding decades, shows increasing interest and solicitude for the instruction and welfare of the children and youth of the town.

On February 28, 1808, the act of incorporation of the Belfast Academy was granted, and the building was completed in 1811. The dedication took place May 18th, of the latter year. Jas. Porter, a graduate of Williams College, was the first preceptor. In 1840, the building was removed and reconstructed throughout; and flourished until 1842, when it was destroyed by fire. In 1846, the brick structure was erected at a cost of \$2200. It was given to the town for use as a public school in 1852, when for the first time the schools in Belfast were graded and a high school established.

The first library association in this town was formed April 21, 1800, through the influence of the Rev. Ebenezer Price, and was called the "Belfast Social Library Society." The original members numbered thirty-nine, and the admission fee was two dollars. In 1821, an association called the "Female Library Society" was in existence for a short time.

"The Belfast Debating Society," which was organized in 1827, continued for about two years. The "Belfast Lyceum" was formed in 1830, with Wm. Stevens as first president, and continued with varying success for many years, being from time to time revived and reorganized, but always

exerting a great and worthy influence for the welfare of education among the citizens of Belfast.

PROFESSIONAL MEN.

LAWYERS OF BELFAST.

Belfast has produced many noted members of the bar since her incorporation as a town, and as the county seat of Waldo has had many resident practitioners of that profession.

Bohan Prentice Field was the first lawyer of Belfast. He was a graduate of Dartmouth College, and after pursuing a course of legal studies subsequent to his graduation, he began the practice of law in Belfast in 1801. He died March 13, 1843, respected and esteemed by all who knew him.

Wm. Crosby opened an office here Jan. 3, 1802. He served as Chief Justice of the Court of Common Pleas for the circuit which included Belfast from 1811 to 1822. He was chosen during his term of office as an elector of President and Vice-President in 1812, and served also in the Massachusetts Senate. His death occurred of paralysis March 31, 1852.

John Wilson, a Harvard graduate, located in Belfast in April, 1803. He was a determined man of great ability and was elected to the United States House of Representatives, serving two terms from 1813 to 1815, and from 1817 to 1819.

Oakes Angier who came here in 1807, Joseph G. Cogswell and Phineas Ashmun practiced in Belfast for brief periods.

Alfred Johnson, a Bowdoin graduate, opened an office here in 1811. He became a brilliant and highly esteemed member of the legal profession and held many offices. "During his judicial service of twenty years," says the Hon. Jos. Williamson in his history, "no appeal was taken from any of his decisions." Judge Johnson's death occurred March 22, 1852.

Zaccheus Porter entered into partnership with the Hon. John Wilson in 1813, and practiced in Belfast until his death Nov. 9, 1824. Joseph M. Seaman practiced in Belfast a very short time.

Wm. White, a graduate of Dartmouth, came to Belfast Oct. 14, 1813. Mr. White was a brilliant lawyer, an eloquent advocate, and a scholarly man as his "History of Belfast" indicates.

Rufus B. Allyn a Harvard graduate began the practice of law in Belfast July 28, 1815, and enjoyed a large practice. He died Jan. 15, 1857.

Joseph Williamson began his practice here Jan. 22, 1816. He was subsequently elected to many important offices among them being the presidency of the Maine Senate in 1834.

James White another Dartmouth graduate began the practice of his profession in Belfast Sept. 3, 1821. He was Treasurer of the State from 1842 to 1847.

Nathaniel Patterson 3d was a native of Belfast, and

after his admission to the bar practiced here for several years. After a period spent in legal practice in West Prospect as Searsport was then called, he returned to his native town and held several important offices, among them being that of Judge of the Police Court which he held from 1860 to the time of his death March 17, 1872.

Hiram O. Alden a graduate of Union College. practiced here many years. He was connected with many important business enterprises. Hezekiah Williams who was afterward a Representative in Congress practiced here in 1824.

Wm. Stevens, 1826-1829; Nathaniel M. Lowney, who became Collector of the District of Belfast; Albert Bingham, a graduate of Middlebury College, Vt., who opened an office at the Head of the Tide in Feb. 1829, Albert G. Jewett, who was appointed by President Polk to the position of Charged'Affaires to Peru, Wm. G. Crosby, a native of this town, who became Governor of Maine in 1853 and 1854, and Solyman Heath who was a Dartmouth graduate all practiced in Belfast.

Webster Kelley who came here in 1837, John F. H. Angier, and Wm. Henry Burrill who represented the city in the Legislature in 1872, were practitioners in Belfast.

Bohan Prentice Field, a son of Belfast's first lawyer, was a native of the town and was admitted to the bar in 1836.

Andrew Thatcher Palmer who commanded a company of infantry in the war with Mexico, Geo. C. Angier, a Bowdoin graduate, Nehemiah Abbott who was a member of Congress from this district 1857-1859, and Mayor of the city 1865-1866, Jonathan G. Dickerson who held several import-

ant offices, among them that of Associate Justice of the Supreme Judicial Court, Howard B. Abbott, a brother of Nehemiah Abbott, and Isaac Newton Fitch who like H. B. Abbott, was a graduate of Bowdoin were Belfast lawyers.

Woodbury Davis who practiced here from 1848 to 1855, afterward became State Treasurer and Judge of the Supreme Court.

Lewis W. Howes, who was a partner of his uncle, Nehemiah Abbott, practiced here for several years.

Alfred W. Johnson, son of Judge Alfred Johnson, was a native of the town and a graduate of Bowdoin. He was admitted to the bar in 1848, and practiced for eight years. He was twice nominated for Congress by the Democrats of the district, and in 1858, failed of an election by only sixty votes.

Frederick A. Lewis of Groton, Mass., Wm. L. Paige a native of Belfast, W. B. Alden another Bowdoin graduate, Joseph Williamson also a Bowdoin man, Wm. M. Rust who came to Belfast in 1853, W. G. Frye, a graduate of Rochester University, Philo Chase 1857-1868, Joseph S. Noyes who was born in Belfast, Jas. B. Murch who came to Belfast in 1858, and W. P. Harriman who practiced for many years after his admission to the bar in 1860, are the names which next appear on the records.

*Wm. Henry McLellan a graduate of the University of New York in 1853, began the practice of law in Belfast in 1860. He was senator from Waldo county in 1872.

Enoch K. Boyle who came to Belfast in 1865, and Wm. H. Fogler who began legal practice in 1866, were the next

 its policy of expansion.

lawyers in Belfast.

*George E. Johnson who was admitted to the bar in 1864, began the practice of law in Belfast after a year spent in Unity, and in 1872, was chosen Judge of the Police Court. He is the present Judge of Probate.

Albert S. Luce who practiced here in 1870, Seth L. Milliken a graduate of Union College, who was admitted to the bar in 1871, and Geo. E. Wallace who began practice here in 1873 come next on the list of Belfast lawyers.

*James S. Harriman, son of the Hon. W. P. Harriman, was admitted to the bar in 1874, and has since practiced in this city.

Emery Boardman, a native of Belfast, who served several years both as City Clerk and City Treasurer, James Y. McClintock who came here from Swanville in 1828, and was elected Sheriff of the county in 1838, 1843, and 1856, and Philo Hersey, a graduate of Tufts College in 1861, have also practiced here.

Emery Sawyer began practice here in 1866, and subsequently went to Searsport. Warren C. Perrigo who came in 1868, removed to Rockland.

*Wm. P. Thompson came here in 1876, and is one of Belfast's ablest attorneys.

T. P. Wilson of New York practiced here a short time. The Hon. Joseph Williamson, a native of Belfast, was the author of the splendid "History of the City of Belfast." By his death, Belfast lost one of her greatest and noblest men.

*R. F. Dunton President of the Belfast Savings Bank, *John R. Dunton Mayor of Belfast in 1906, *Fred W. Brown,

*R. W. Rogers, a Bates graduate, *F. A. Greer who came here from Belmont in 1876, *Ralph I. Morse who settled in Belfast in 1876, *Wayland Knowlton who came from Liberty and began practice here in February 1880, *Arthur Ritchie who came in 1903, and *Tileston Wadlin, Clerk of Courts, are honored members of the bar, and are the worthy successors of the able men who have made Belfast one of the foremost cities of Maine in the practice of law.

NOTE—The asterisk indicates the present resident practitioners.

BELFAST PHYSICIANS.

Dr. John Scollay Osborn was the first resident physician in Belfast. He was born in Epsom, N. H., in 1771, and came to this place in 1792. He practiced almost until his death, which occurred Feb. 13, 1831.

Dr. Joseph Underwood who came here in 1800, Dr. Webster, Dr. Wm. Crooks and Dr. McMillan were in Belfast for brief periods.

Dr. Chauncey C. Chandler who came to Belfast from Vermont in 1803, Dr. Thaddeus Hubbard who came about the same time, Dr. Chas. Hall who settled here in 1807, Dr. Edward Creamer, 1808-1810, Dr. Caleb Boutelle, a Harvard graduate, who like Dr. Hubbard had served in the War of 1812, and Dr. Eben Poor who came here in 1814, were among the early physicians of the town.

Dr. Herman Abbot who practiced in the town from 1810 to 1825, Dr. Wm. Poor who came here in 1815, and Dr. Hollis Monroe a graduate of Yale in 1819, were highly esteemed by the people of the town.

Dr. Jonathan P. Alden who practiced from 1823 until about 1848, Dr. Josiah Prescott who resided in Belfast during the decade 1820-1830, Dr. Abiel Reed who was here in 1826, Dr. Daniel McRuer, a native of Scotland, who practiced a short time at the Head of the Tide, Dr. Richard Moody who was elected Mayor of the city in 1860, Dr. Seth W. Eels who stayed a very short time, and Dr. J. Parker who took up his residence at the Head of the Tide in July 1835 are the physicians whose names appear next on the records.

Dr. A. T. Wheelock, a Bowdoin graduate in the class of 1834, received the degree of Doctor of Medicine at Harvard in 1838, and came to Belfast the same year. In 1855, he was appointed by the Maine Legislature a Commissioner to the Paris Exhibition.

Dr. Nathan Parker Monroe, brother of Dr. Hollis Monroe, began the practice of medicine in Belfast in 1839, and continued in this place until 1871, building up a large and lucrative practice. He stood among the foremost in his profession and was elected President of the Maine Medical Association. He served as Surgeon of the Twentieth Maine Regiment during the Civil War.

Elbridge G. Gould 1840-1861, Dr. John Payne who came here in 1841, Dr. Chas. N. Germaine 1850, Dr. John G. Brooks who was elected Mayor of Belfast in 1874, Dr. Lycurgus V. Payne, son of Dr. John Payne, 1851-1853, and Dr. E. R. Johnston who succeeded Dr. Payne, were resident practicing physicians in the town. Dr. James T. Shaw came here about 1857.

*Dr. David P. Flanders, one of the present physicians of this city, graduated at the Harvard Medical School in 1857, and began practice in Belfast in 1858. Dr. Flander's system is homœopathic. Dr. Lewis W. Pendleton began practice here in 1864, the year of his graduation from the Albany Medical College.

Dr. H. H. Johnson, Jr., a graduate of Tufts College, received his medical degree at Harvard, and began practice in Belfast in 1869. He was a member of both the Massachusetts and Maine Medical Societies. He died in 1896.

*Dr. Elmer Small opened his office first in January, 1872. He is a graduate of the Medical School of Maine in the class of 1870. Dr. Small practiced a short time in Melrose, Iowa, but has resided in Belfast for many years and is now in active practice in this city.

Dr. John Fletcher came here in July, 1874, and was in practice many years. Dr. John Homer of Newburyport, Mass., Dr. F. A. Davis of Boston, Mass., Dr. R. R. Tibbetts of Bethel, Maine, and Dr. J. G. Ham of New York City, have all practiced in Belfast. Dr. Arthur Ellingwood was here a short time.

*Dr. Gustavus Kilgore, a native of Smithfield, Me., and a graduate of the University of Vermont, began practice in this city in Oct. 1880.

*Dr. S. W. Johnson, graduated at the Bowdoin Medical School in 1864, settled in Dixmont soon after, and began practice in Belfast in Oct. 1882.

*Dr. Alverard A. Wilson, a graduate of the University of

Vermont, settled in this city in 1885.

*Dr. Luther W. Hammons came here from Islesboro in 1891.

*Dr. Eugene L. Stevens, a Bowdoin Medical school graduate settled in Belfast in 1893.

*Dr. T. H. Sidelinger, a graduate of the Medical School of Milwaukee, came here in 1894. He is an ophthalmic surgeon.

*Dr. E. D. Tapley who came to Belfast in 1904, is a graduate of the Long Island College Hospital.

*Dr. Orris S. Vickery graduated at the Medical College of Syracuse University and began practice in this city in September, 1904.

NOTE—The star indicates those who are now in active practice.

The dentists in Belfast are Dr. A. O. Stoddard who began practice here in 1876; Geo. W. Stoddard, D. D. S., who graduated at the Philadelphia Dental College in 1874; Dr. Gilman P. Lombard who settled here in 1869; Dr. Isaac Hills; and Dr. Wm. C. Libbey who began practice in this city in 1892.

MUNICIPAL OFFICERS.

SELECTMEN.

1773-75—John Brown, Benj. Nesmith, Jas. Patterson.

1776—John Tuft, John Brown, Jas. Patterson.

1779—Solon Stephen, Robert Patterson, Alex. Clark.

CHAPTER I

The first part of the book is devoted to a general survey of the history of the subject. It begins with a brief account of the early attempts to explain the phenomena of life, and then proceeds to a more detailed examination of the various theories which have been proposed. The author discusses the mechanical, vitalist, and evolutionary views, and compares them with the facts of observation. He also touches upon the question of the origin of life, and the possibility of a divine intervention. The chapter concludes with a summary of the main points, and a list of references.

The second part of the book is devoted to a more detailed examination of the various theories which have been proposed. It begins with a discussion of the mechanical view, and then proceeds to a more detailed examination of the vitalist and evolutionary views. The author discusses the various experiments which have been conducted to test these theories, and compares the results with the facts of observation. He also touches upon the question of the origin of life, and the possibility of a divine intervention. The chapter concludes with a summary of the main points, and a list of references.

The first of these is the fact that the
 majority of the people who are
 interested in the subject of
 the present are not interested in
 the subject of the future. It is
 a fact that the majority of the
 people who are interested in the
 subject of the present are not
 interested in the subject of the
 future.

The second of these is the fact that
 the majority of the people who are
 interested in the subject of the
 present are not interested in the
 subject of the future. It is a
 fact that the majority of the
 people who are interested in the
 subject of the present are not
 interested in the subject of the
 future.

The third of these is the fact that
 the majority of the people who are
 interested in the subject of the
 present are not interested in the
 subject of the future. It is a
 fact that the majority of the
 people who are interested in the
 subject of the present are not
 interested in the subject of the
 future.

CITY TREASURERS.

1853, Augustus Perry; 1854-57, J. S. Caldwell; 1857, Chas. Palmer; 1858-60, Augustus Perry; 1860, Jas. White; 1861-67, Thos. Marshall; 1867-68 (Sept. 1), Daniel Haraden; 1868-71, Timothy Thorndike; 1871-78, Daniel Haraden (resigned); 1878, John G. Brooks (resigned); 1878, Wm. O. Poor; 1879-83, Augustus Perry; 1883, I. M. Boardman; 1884-86, Emery Boardman; 1886-95, Nathan F. Houston; 1895-1906, James Pattee; 1906, S. Augustus Parker; 1907, James C. Durham.

ITEMS OF INTEREST.

The Belfast Free Library was opened for the first time in May, 1888. It was the bequest of the late P. R. Hazeltine, who gave \$20,000 for its erection and maintenance. Miss Elizabeth M. Pond was the first Librarian.

The Rev. Ashley A. Smith is Chairman of the trustees for 1907.

Miss Annie Barr is Librarian; Miss Grace Hall, Assistant Librarian. The library is opened Monday, Wednesday, Friday and Saturday afternoons from 2 to 5; Tuesday, Thursday and Saturday evenings from 6.30 to 8.30.

The Girls' Home was first opened Nov. 5, 1895. It is under the management of the Children's Aid Society of Maine, and was the first home of its kind in the state.

The Saxophone Quartette was formed Aug. 1905. Lee Patterson is Instructor, and the members are Charles, Luther A., Roscoe, and Selden Hammons.

STREETS AND AVENUES.

Old Masonic Hall, High School Build'g, Church, cor. Spring

People's Mission Rooms, Boardman's Building, High.

Seaside Grange Hall, Field, near High.

Sons of Veterans' Hall, Main; over Pickard's Barber Shop.

Waldo Club Room, Masonic Temple, High, corner Main.

The first part of the chapter is devoted to a discussion of the various methods of determining the rate of reaction. The second part is devoted to a discussion of the various factors which influence the rate of reaction. The third part is devoted to a discussion of the various theories of reaction rates.

THE RATE OF REACTION

The rate of reaction is defined as the change in concentration of a reactant or product per unit time. It is usually expressed in terms of moles per liter per second. The rate of reaction can be determined by measuring the change in concentration of a reactant or product over a given period of time. There are several methods of determining the rate of reaction. One method is to measure the change in concentration of a reactant or product over a given period of time. Another method is to measure the change in pressure or volume of a gas over a given period of time. A third method is to measure the change in color of a solution over a given period of time. The rate of reaction is influenced by several factors. The concentration of the reactants, the temperature, the presence of a catalyst, and the surface area of the reactants all influence the rate of reaction. The rate of reaction is also influenced by the nature of the reactants and the mechanism of the reaction. Theories of reaction rates have been proposed to explain the factors which influence the rate of reaction. The collision theory, the transition state theory, and the steady state theory are the most widely accepted theories of reaction rates.

Census-1907

The population of the city of Belfast has been arranged in families where that arrangement has been possible. In addition to the resident living members, the names of the non-resident members are included. It should be borne in mind that this plan does not include the names of all former residents of this town, as the names of the non-residents appear only when one or both of the parents are still living in the town. After the name of each non-resident will be found the present address, when such address has been given to us. Non-residents are indicated by the (*).

When a daughter in a family has married, her name taken in marriage appears after her given name in parenthesis, the name preceded by a small m, thus: (m).

Following the names of the population is the occupations. To designate these we have used the more common abbreviations and contractions, as follows: Farmer—far; carpenter—car; railroad service—R R ser; student, a member of an advanced institution of learning—stu; pupil, a member of a lower grade of schools (including all who have reached the age of five years)—pl; housework—ho; laborer—lab; physician and surgeon—phy & sur; clergyman—clerg; merchant—mer; teacher—tr; blacksmith—blk; clerk—cl; bookkeeper—bk kpr; lawyer—law; mechanic mech; machinist—mach; engineer—eng; maker—mkr; worker—wkr; work—wk; shoe shop operative—ss op; cotton or woolen mill operatives—mill op; weaver—weav; spinner—spin; electrician—elec; painter—ptr; carriage work—car wk; dress maker—dr mkr; insurance—ins; traveling salesman, or commercial traveler—sales, or coml trav; music teacher—mus tr; teamster—team; general work—genl wk; mariner—mar; employ—emp; retired—ret d; telephone operative—tel op; telegraph operative—teleg op.

This Census was taken expressly for this work during the Summer of 1907, by Mitchell, Walton and Lawton.

Census of Belfast—1907.

NOTE—Street abbreviations are explained in the list of Streets and Avenues. Adjoining towns are abbreviated thus:—Northport—N'pt; Lincolnville—L'ville; Searsmont—S'mont; Searsport—S'pt. The abbreviation C Pt for City Point indicates the post office address as well as the location. Rural free delivery routes are shown by the number of the route.

1. The first part of the book is devoted to a general survey of the subject.	2. The second part is devoted to a detailed examination of the various aspects of the subject.
3. The third part is devoted to a discussion of the various methods of investigation.	4. The fourth part is devoted to a discussion of the various results of the investigation.
5. The fifth part is devoted to a discussion of the various applications of the subject.	6. The sixth part is devoted to a discussion of the various conclusions of the investigation.
7. The seventh part is devoted to a discussion of the various suggestions for further research.	8. The eighth part is devoted to a discussion of the various references of the subject.
9. The ninth part is devoted to a discussion of the various notes of the subject.	10. The tenth part is devoted to a discussion of the various appendices of the subject.
11. The eleventh part is devoted to a discussion of the various indexes of the subject.	12. The twelfth part is devoted to a discussion of the various tables of the subject.
13. The thirteenth part is devoted to a discussion of the various figures of the subject.	14. The fourteenth part is devoted to a discussion of the various maps of the subject.
15. The fifteenth part is devoted to a discussion of the various photographs of the subject.	16. The sixteenth part is devoted to a discussion of the various diagrams of the subject.
17. The seventeenth part is devoted to a discussion of the various specimens of the subject.	18. The eighteenth part is devoted to a discussion of the various models of the subject.
19. The nineteenth part is devoted to a discussion of the various experiments of the subject.	20. The twentieth part is devoted to a discussion of the various observations of the subject.
21. The twenty-first part is devoted to a discussion of the various measurements of the subject.	22. The twenty-second part is devoted to a discussion of the various calculations of the subject.
23. The twenty-third part is devoted to a discussion of the various deductions of the subject.	24. The twenty-fourth part is devoted to a discussion of the various inferences of the subject.
25. The twenty-fifth part is devoted to a discussion of the various conclusions of the subject.	26. The twenty-sixth part is devoted to a discussion of the various suggestions of the subject.
27. The twenty-seventh part is devoted to a discussion of the various references of the subject.	28. The twenty-eighth part is devoted to a discussion of the various notes of the subject.
29. The twenty-ninth part is devoted to a discussion of the various appendices of the subject.	30. The thirtieth part is devoted to a discussion of the various indexes of the subject.
31. The thirty-first part is devoted to a discussion of the various tables of the subject.	32. The thirty-second part is devoted to a discussion of the various figures of the subject.
33. The thirty-third part is devoted to a discussion of the various maps of the subject.	34. The thirty-fourth part is devoted to a discussion of the various photographs of the subject.
35. The thirty-fifth part is devoted to a discussion of the various diagrams of the subject.	36. The thirty-sixth part is devoted to a discussion of the various specimens of the subject.
37. The thirty-seventh part is devoted to a discussion of the various models of the subject.	38. The thirty-eighth part is devoted to a discussion of the various experiments of the subject.
39. The thirty-ninth part is devoted to a discussion of the various observations of the subject.	40. The fortieth part is devoted to a discussion of the various measurements of the subject.
41. The forty-first part is devoted to a discussion of the various calculations of the subject.	42. The forty-second part is devoted to a discussion of the various deductions of the subject.
43. The forty-third part is devoted to a discussion of the various inferences of the subject.	44. The forty-fourth part is devoted to a discussion of the various conclusions of the subject.
45. The forty-fifth part is devoted to a discussion of the various suggestions of the subject.	46. The forty-sixth part is devoted to a discussion of the various references of the subject.
47. The forty-seventh part is devoted to a discussion of the various notes of the subject.	48. The forty-eighth part is devoted to a discussion of the various appendices of the subject.
49. The forty-ninth part is devoted to a discussion of the various indexes of the subject.	50. The fiftieth part is devoted to a discussion of the various tables of the subject.
51. The fifty-first part is devoted to a discussion of the various figures of the subject.	52. The fifty-second part is devoted to a discussion of the various maps of the subject.
53. The fifty-third part is devoted to a discussion of the various photographs of the subject.	54. The fifty-fourth part is devoted to a discussion of the various diagrams of the subject.
55. The fifty-fifth part is devoted to a discussion of the various specimens of the subject.	56. The fifty-sixth part is devoted to a discussion of the various models of the subject.
57. The fifty-seventh part is devoted to a discussion of the various experiments of the subject.	58. The fifty-eighth part is devoted to a discussion of the various observations of the subject.
59. The fifty-ninth part is devoted to a discussion of the various measurements of the subject.	60. The sixtieth part is devoted to a discussion of the various calculations of the subject.
61. The sixty-first part is devoted to a discussion of the various deductions of the subject.	62. The sixty-second part is devoted to a discussion of the various inferences of the subject.
63. The sixty-third part is devoted to a discussion of the various conclusions of the subject.	64. The sixty-fourth part is devoted to a discussion of the various suggestions of the subject.
65. The sixty-fifth part is devoted to a discussion of the various references of the subject.	66. The sixty-sixth part is devoted to a discussion of the various notes of the subject.
67. The sixty-seventh part is devoted to a discussion of the various appendices of the subject.	68. The sixty-eighth part is devoted to a discussion of the various indexes of the subject.
69. The sixty-ninth part is devoted to a discussion of the various tables of the subject.	70. The seventieth part is devoted to a discussion of the various figures of the subject.
71. The seventy-first part is devoted to a discussion of the various maps of the subject.	72. The seventy-second part is devoted to a discussion of the various photographs of the subject.
73. The seventy-third part is devoted to a discussion of the various diagrams of the subject.	74. The seventy-fourth part is devoted to a discussion of the various specimens of the subject.
75. The seventy-fifth part is devoted to a discussion of the various models of the subject.	76. The seventy-sixth part is devoted to a discussion of the various experiments of the subject.
77. The seventy-seventh part is devoted to a discussion of the various observations of the subject.	78. The seventy-eighth part is devoted to a discussion of the various measurements of the subject.
79. The seventy-ninth part is devoted to a discussion of the various calculations of the subject.	80. The eightieth part is devoted to a discussion of the various deductions of the subject.
81. The eighty-first part is devoted to a discussion of the various inferences of the subject.	82. The eighty-second part is devoted to a discussion of the various conclusions of the subject.
83. The eighty-third part is devoted to a discussion of the various suggestions of the subject.	84. The eighty-fourth part is devoted to a discussion of the various references of the subject.

1. The first of the three main divisions of the world's population is the white race, which is found in Europe, North America, and the South American continent.

2. The second division is the yellow race, which is found in the East Indies, China, and the islands of the Pacific Ocean.

3. The third division is the black race, which is found in Africa, the West Indies, and the South American continent.

4. The fourth division is the brown race, which is found in the mountains of the Andes and the islands of the Pacific Ocean.

5. The fifth division is the red race, which is found in the mountains of the Andes and the islands of the Pacific Ocean.

6. The sixth division is the black race, which is found in Africa, the West Indies, and the South American continent.

7. The seventh division is the brown race, which is found in the mountains of the Andes and the islands of the Pacific Ocean.

8. The eighth division is the red race, which is found in the mountains of the Andes and the islands of the Pacific Ocean.

9. The ninth division is the black race, which is found in Africa, the West Indies, and the South American continent.

10. The tenth division is the brown race, which is found in the mountains of the Andes and the islands of the Pacific Ocean.

11. The eleventh division is the red race, which is found in the mountains of the Andes and the islands of the Pacific Ocean.

Waldo Trust Company, Belfast, Me. Safe, Conservative, Progressive.

Assets over \$750,000.

The first of these is the fact that the
 number of cases of smallpox in 1888
 was 10,000, which is a very large number
 for a city of this size. This is due to the
 fact that the disease is very contagious
 and spreads very rapidly. The second
 fact is that the mortality rate was
 very high, being 10 per cent. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The third fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The fourth fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The fifth fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The sixth fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The seventh fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The eighth fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The ninth fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.
 The tenth fact is that the disease was
 very common in 1888, being found in
 almost every part of the city. This is
 also due to the fact that the disease is
 very contagious and spreads very rapidly.

James Pattee & Son, Masonic Temple.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) and (2) for arbitrary values of the parameters α and β . It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

2. In the second part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

3. In the third part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

4. In the fourth part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

5. In the fifth part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

6. In the sixth part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

7. In the seventh part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

8. In the eighth part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

9. In the ninth part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

10. In the tenth part of the paper the problem of the existence of solutions of the system (1) and (2) for arbitrary values of the parameters α and β is solved. It is shown that the system has solutions for all values of α and β if the function $f(x)$ is continuous and has a bounded derivative.

THE first object of this work is to show that the
principles of geometry are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The second object is to show that the
principles of arithmetic are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The third object is to show that the
principles of algebra are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The fourth object is to show that the
principles of geometry are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The fifth object is to show that the
principles of arithmetic are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The sixth object is to show that the
principles of algebra are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The seventh object is to show that the
principles of geometry are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The eighth object is to show that the
principles of arithmetic are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The ninth object is to show that the
principles of algebra are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.
The tenth object is to show that the
principles of geometry are not self-evident
truths, but are founded on certain assumptions
which are not themselves demonstrable.

The first of these is the fact that the
 country is a very fertile one, and
 the soil is very rich. The second is
 the fact that the climate is very
 healthy, and the air is very pure.
 The third is the fact that the
 people are very industrious, and
 the government is very wise.
 The fourth is the fact that the
 country is very large, and the
 population is very small.
 The fifth is the fact that the
 country is very rich, and the
 people are very poor.
 The sixth is the fact that the
 country is very beautiful, and the
 people are very happy.
 The seventh is the fact that the
 country is very strong, and the
 people are very brave.
 The eighth is the fact that the
 country is very free, and the
 people are very honest.
 The ninth is the fact that the
 country is very good, and the
 people are very kind.
 The tenth is the fact that the
 country is very great, and the
 people are very noble.

The first of these is the fact that the
government has been unable to
maintain a stable currency. The
result has been a constant
inflation of the money supply,
which has led to a general
loss of confidence in the
government's financial policy.
This has in turn led to a
collapse of the value of the
national currency, which has
resulted in a severe economic
crisis. The government has
been unable to implement
any effective measures to
stabilize the economy, and
the situation has become
hopeless. The only way out
is to seek international
assistance, but this has
been refused by the
major powers. The
government is now
facing a dire situation,
and the people are
suffering immensely.
The only hope is that
the government will
take prompt action to
reform its financial
policy, and that the
international community
will provide the
necessary assistance.

The first part of the document discusses the early history of the region, starting from the time of the first settlers. It mentions the various challenges they faced, such as lack of resources and harsh weather conditions. The second part describes the growth of the community over time, highlighting the contributions of different groups of people. It also touches upon the economic activities that developed in the area, such as agriculture and trade. The third part of the document focuses on the social and cultural aspects of the community, including the establishment of schools and religious institutions. Finally, the fourth part discusses the modern developments in the region, including infrastructure projects and the impact of globalization.

James Pattee & Son, Insurance,
Represent the best American and Foreign Companies.

1870
The following is a list of the names of the persons who have been admitted to the membership of the Society since the last meeting of the Council, viz. the 1st of January 1870.

Name		Residence	
Mr. J. A. Smith		10, St. James's Street	London
Mr. W. B. Jones		25, Regent Street	London
Mr. C. D. Brown		15, Victoria Road	London
Mr. E. F. Green		30, Whitehall	London
Mr. G. H. Black		40, Strand	London
Mr. I. K. White		50, Pall Mall	London
Mr. L. M. Grey		60, Piccadilly	London
Mr. N. O. Gold		70, Bond Street	London
Mr. P. Q. Silver		80, Grosvenor Street	London
Mr. R. S. Copper		90, Portico	London
Mr. T. U. Lead		100, St. James's Place	London
Mr. V. W. Tin		110, St. James's Place	London
Mr. X. Y. Zinc		120, St. James's Place	London
Mr. Z. A. Iron		130, St. James's Place	London
Mr. B. C. Steel		140, St. James's Place	London
Mr. D. E. Brass		150, St. James's Place	London
Mr. F. G. Nickel		160, St. James's Place	London
Mr. H. I. Cobalt		170, St. James's Place	London
Mr. J. K. Manganese		180, St. James's Place	London
Mr. L. M. Potassium		190, St. James's Place	London
Mr. N. O. Sodium		200, St. James's Place	London
Mr. P. Q. Magnesium		210, St. James's Place	London
Mr. R. S. Calcium		220, St. James's Place	London
Mr. T. U. Strontium		230, St. James's Place	London
Mr. V. W. Barium		240, St. James's Place	London
Mr. X. Y. Lead		250, St. James's Place	London
Mr. Z. A. Bismuth		260, St. James's Place	London
Mr. B. C. Antimony		270, St. James's Place	London
Mr. D. E. Arsenic		280, St. James's Place	London
Mr. F. G. Tellurium		290, St. James's Place	London
Mr. H. I. Selenium		300, St. James's Place	London
Mr. J. K. Silicon		310, St. James's Place	London
Mr. L. M. Boron		320, St. James's Place	London
Mr. N. O. Carbon		330, St. James's Place	London
Mr. P. Q. Nitrogen		340, St. James's Place	London
Mr. R. S. Oxygen		350, St. James's Place	London
Mr. T. U. Hydrogen		360, St. James's Place	London
Mr. V. W. Chlorine		370, St. James's Place	London
Mr. X. Y. Fluorine		380, St. James's Place	London
Mr. Z. A. Bromine		390, St. James's Place	London
Mr. B. C. Iodine		400, St. James's Place	London
Mr. D. E. Phosphorus		410, St. James's Place	London
Mr. F. G. Sulfur		420, St. James's Place	London
Mr. H. I. Magnesium		430, St. James's Place	London
Mr. J. K. Calcium		440, St. James's Place	London
Mr. L. M. Strontium		450, St. James's Place	London
Mr. N. O. Barium		460, St. James's Place	London
Mr. P. Q. Lead		470, St. James's Place	London
Mr. R. S. Bismuth		480, St. James's Place	London
Mr. T. U. Antimony		490, St. James's Place	London
Mr. V. W. Arsenic		500, St. James's Place	London
Mr. X. Y. Tellurium		510, St. James's Place	London
Mr. Z. A. Selenium		520, St. James's Place	London
Mr. B. C. Silicon		530, St. James's Place	London
Mr. D. E. Boron		540, St. James's Place	London

The first of these is the fact that the
 government has been unable to
 secure the necessary funds to
 carry out its policy of
 maintaining the value of the
 pound sterling. This has led to
 a situation where the government
 has been forced to resort to
 measures which are not in the
 long-term interests of the
 country. The second point is
 that the government has been
 unable to secure the necessary
 funds to carry out its policy
 of maintaining the value of the
 pound sterling. This has led to
 a situation where the government
 has been forced to resort to
 measures which are not in the
 long-term interests of the
 country. The third point is
 that the government has been
 unable to secure the necessary
 funds to carry out its policy
 of maintaining the value of the
 pound sterling. This has led to
 a situation where the government
 has been forced to resort to
 measures which are not in the
 long-term interests of the
 country.

If your money is Safe, it's in Waldo Trust Company, if it's in
Waldo Trust Company, Belfast, it's Safe. Total assets over \$750,000.

The first part of the book is devoted to a general survey of the history of the subject. It begins with a discussion of the early attempts to explain the origin of life, and then proceeds to a consideration of the more recent theories. The author then turns to a discussion of the various forms of life, and the changes which have taken place in the course of time. He then discusses the various theories of the origin of the different species, and the changes which have taken place in the course of time. The book is written in a clear and concise style, and is well illustrated with numerous figures and diagrams. It is a valuable work for all those who are interested in the history of the subject.

THE AUTHOR'S ADDRESS IS: [illegible]

The first part of the paper is devoted to a general discussion of the problem of the origin of life. It is shown that the problem is not only a scientific one, but also a philosophical one. The scientific aspect of the problem is concerned with the question of how life arose from non-life. The philosophical aspect is concerned with the question of whether life is a necessary part of the universe or whether it is a mere accident. The paper then proceeds to a discussion of the various theories of the origin of life. These theories are divided into two main groups: the theory of spontaneous generation and the theory of biogenesis. The theory of spontaneous generation is the older of the two and is based on the idea that life can arise from non-life. The theory of biogenesis is the newer of the two and is based on the idea that life can only arise from life. The paper then discusses the evidence for and against each of these theories. It is shown that the evidence for spontaneous generation is weak, while the evidence for biogenesis is strong. The paper then concludes by stating that the theory of biogenesis is the most probable theory of the origin of life.

The first part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the business to have a clear and concise record of all income and expenses. This will allow the business to track its financial performance over time and identify areas for improvement. The second part of the paper discusses the importance of maintaining accurate records of all assets and liabilities. This will allow the business to track its net worth over time and identify areas for improvement. The third part of the paper discusses the importance of maintaining accurate records of all debts and obligations. This will allow the business to track its financial obligations over time and identify areas for improvement. The fourth part of the paper discusses the importance of maintaining accurate records of all taxes and other legal obligations. This will allow the business to track its financial obligations over time and identify areas for improvement. The fifth part of the paper discusses the importance of maintaining accurate records of all other financial information. This will allow the business to track its financial performance over time and identify areas for improvement.

The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system (1) has solutions for arbitrary values of the parameters α and β if and only if the conditions (2) are satisfied. The second part of the paper is devoted to a detailed study of the properties of the solutions of the system (1) for arbitrary values of the parameters α and β . It is shown that the solutions of the system (1) are unique and depend continuously on the parameters α and β . The third part of the paper is devoted to a study of the asymptotic properties of the solutions of the system (1) for large values of the parameters α and β . It is shown that the solutions of the system (1) approach a certain limit as the parameters α and β approach infinity.

THE HISTORY OF THE
CITY OF BOSTON

The city of Boston, situated on a neck of land between the harbor and the bay, has a history of more than three centuries. It was first settled by a few Englishmen in 1630, and has since that time grown to be one of the most important cities in the United States. The city is bounded on the north by the harbor, on the east by the bay, and on the south and west by the city of Cambridge. The city is divided into several wards, and each ward is further divided into streets and blocks. The city is also divided into several districts, each of which has its own local government. The city is governed by a mayor and a city council, and is subject to the laws of the Commonwealth of Massachusetts. The city has a long and illustrious history, and has been the scene of many important events in the history of the United States. It was the first city in the United States to be founded by Englishmen, and it was the first city to be incorporated as a city. It was also the first city to be the seat of a colonial government, and it was the first city to be the site of a revolution. The city has a rich and varied culture, and it is one of the most important cities in the world.

The city of Boston is a city of many firsts. It was the first city in the United States to be founded by Englishmen, and it was the first city to be incorporated as a city. It was also the first city to be the seat of a colonial government, and it was the first city to be the site of a revolution. The city has a rich and varied culture, and it is one of the most important cities in the world.

DR. TRUE'S ELIXIR

As a reliable family tonic, in all complaints of the stomach, liver or bowels, especially constipation, Dr. True's Elixir stands without an equal; it is a pure vegetable compound with a wonderfully successful record since 1851. **Adults** as well as **children** are troubled with **worms**. The symptoms are: Indigestion, with a variable appetite; foul tongue, offensive breath, hard and full belly, with occasional gripings and pains about the naval; eyes heavy and dull, itching of the nose, short, dry cough; grinding of the teeth, starting during sleep; slow fever, and often in children, convulsions and bed wetting.

A few doses of Dr. True's Elixir will expel the worms if there are any: if not it acts as a gentle laxative tonic, clearing the stomach and bowels of all waste matter, leaving these organs sweet and clean—it increases the appetite, causing pure life-giving blood to flow through the body, thus invigorating the whole system with rugged, robust health. If taken regularly it will prevent coughs, colds, fevers and worms.

Sold by druggists, 25c, 50c, \$1.00. Write for booklet, "Children and Their Diseases."

DR. J. F. TRUE & CO., Auburn, Me.
